

## FULL SERVICE PARTNERSHIP

## INTENSIVE RESIDENTIAL PROGRAM

### Transitions-Mental Health Association

The Full Service Partnership (FSP) Intensive Residential Program is funded by the Mental Health Services Act (MHSA) and provides 24/7 intensive community-based wrap around services to help people in recovery live independently. Residents are referred to the program through San Luis Obispo County Behavioral Health Services and occupy a variety of community housing and apartment rentals throughout San Luis Obispo and in Atascadero.

Program services and activities are provided almost entirely in residents' homes and within the immediate community. Residents are assisted in their efforts to gain the skills needed to make choices that reflect their own values, preferences, and goals; supports are developed to meet each person's needs and to empower each individual to attain their highest level of independence possible. Services include:

- Supportive care, case management, and rehabilitative mental health services.
- Regular appointments with psychiatrists.
- Regular access to medical services.
- Highly individualized treatment, medication and personal milestones.
- The development of independent living skills, including cooking, cleaning, grocery shopping, conflict resolution, money management, and social skills.
- Co-occurring disorder support groups for clients who also have problems with substance abuse.
- Vocational and educational opportunities.
- Support groups addressing other medical issues requiring maintenance and medication.

The FSP Intensive Residential Program focuses on encouraging each consumer's recovery and pursuit of a full, productive life by working with the whole person, rather than focusing on alleviating symptoms. Services and staff teams are fully integrated to give each member a range of choices, making the consumer the main decision-maker in his or her own recovery process.
